

DD PCC

The compact DD PCC (pistol caliber carbine) is an AR15-style rifle that's portable, lightweight, and very maneuverable. It features an 16" Cold Hammer Forged barrel that's extremely durable and provides great ballistics for the ubiquitous, cost-effective 9mm rounds it fires. This rifle may be compact and lightweight, but it's very feature heavy and fully customizable, including having a free-floating, 13.5" DD4 rail with popular M-LOK attachment for accommodating lights, sling mounts, or a vertical foregrip. The DD PCC is a great choice for a wide array of applications, is incredibly maneuverable, and just plain fun and easy to shoot—which you're sure to do plenty of given how readily available and affordable 9mm rounds are. This rugged PCC is sure to become an instant classic and is built and backed by Daniel Defense, the most trusted name in firearms.

FEATURES:

- + Compact platform is extremely portable and highly maneuverable; upper and lower receivers are shorter than a standard AR15-style rifle
- + Fully ambidextrous lower enables shooter to operate important rifle mechanisms without moving dominant hand from rifle grip
- + 16" Cold Hammer Forged barrel with 1:10 twist provides better accuracy and extended barrel life
- + 1/2 x 28 threaded barrel accommodates standard aftermarket 9mm muzzle devices
- + Hydraulic buffer significantly reduces recoil, typically associated with direct-blowback firearms
- + Utilizes readily available, affordable CZ Scorpion magazines in multiple capacities, which are easy to load without the use of a mag loader
- + Lightweight, 13.5" DD4 rail with popular M-LOK attachment accept a wide range of AR accessories for full customization to meet your mission requirements

SPECIFICATIONS:

Barrel Material:	Stainless Steel
Barrel Type:	Cold Hammer Forged
Barrel Profile:	S2W
Rifling Twist:	1:10"
Operating System:	Recoil Operated; Hydraulically Buffed
Muzzle Device:	DD Flash Hider
Overall Length:	32"-35.25"
Weight (unloaded):	7.05 LBS
Rail System:	DD4 13.5
